But at the same time we are pleased to provide the information directly to all of you by this mail : Circus in the focus The Fédération Mondiale du Cirque (FMC) in close collaboration with István Újhelyi, Member of the European Parliament (MEP) launches a campaign on World Circus Day 2017 to present the diversity of circus arts and its reality behind the curtains. The Circus Manifesto ([www.circusmanifesto.eu](http://www.circusmanifesto.eu)) was announced and signed in Monte-Carlo during the FMC circus directors' luncheon on the 22nd of January 2017. The document contains MEP Újhelyi's initiative to create a system of evaluation for circuses: the so called Big Top Label. This quality assurance system will allow promoting high quality circuses, to help the public to go for real values. On the way of getting prepared to work out the principles and methods of the Big Top Label we want to present the best examples of circus arts, its beauty and wonders, its difficulties and of course its growing social effects. We invite you to participate and tell your opinion ([contact@bigtoplabel.com](mailto:contact@bigtoplabel.com)) Enjoy the video and support us by sharing it please :
